

Heavy Duty Adjustable Banner Stand

1. Screw three-section poles onto bases (fig. A).
2. Screw crossbar flats together to form 2 crossbar assemblies (JN-5 only) (fig. B).
3. Slide graphics over crossbars (fig. C).
4. Secure top and bottom crossbars to uprights using knobs provided and secure optional crossbar at desired height (fig. D).
5. Raise telescopic tube uprights until the graphic is taut, then lock.
